

MEMORANDUM FOR:

STAT

I have reviewed the draft of "Development of Photographic Print Straightener" along with it's refs. and attachments.

I find that the technical aspects of the solution proposed by  are sound and their performance schedule realistic.

STAT

I recommend that their proposal be accepted for development.

MEMORANDUM FOR THE RECORD

SUBJECT: Visit to [REDACTED]

AT 1. On 19 January 1966 the undersigned visited the above industrial firms in company with [REDACTED] of P&DS/DB for the purpose of determining their interest, if any, in the development of a wide print straightener and to discuss the technical requirement of such an item.

AT 2. [REDACTED]

people are best equipped to handle matters in the field of optics and electronics. However, they have adequate personnel and facilities to do a moderate amount of work in the field of mechanics.

AT 3. The [REDACTED] people are definitely interested in developing a print straightener for us and will submit an unsolicited proposal to reach us about 15 February 1966. [REDACTED]

AT [REDACTED]  
AT [REDACTED] This company is oriented toward special purpose cameras and photogrammetric devices but have adequate facilities and personnel to handle development and limited production of the required print straightener.

AT 4. [REDACTED] management is definitely interested in developing a print straightener for us and will submit us an unsolicited proposal on or before 15 February 1966.
